LEC	Postsecondary Enrollment Options (Also IGCH)

EDUCATION AGENCY RELATIONS GOALS

The Board cooperates with other districts and with other local, state and regional agencies and organizations in the solution of educational problems of common concern. This cooperation extends but is not limited to such areas as research, exchange of information and data, coordination of curriculum, coordination of school calendars and activities and construction of facilities which might be efficiently used on a cooperative basis. To serve a broader area, the District may consider other activities.

In carrying out this policy, the Superintendent may include in his/her recommendations to the Board an evaluation of the desirability and feasibility of cooperation with other agencies in endeavors which could benefit the District.

RELATIONS WITH OTHER SCHOOLS AND EDUCATIONAL INSTITUTIONS

The Board cooperates with other districts and institutions of higher learning for such purposes as:

1. seeking solutions to educational problems of common concern;
2. offering supporting services of high quality to our students;
3. acquiring federal and state grants and
4. promoting local school system involvement in regional and state decision making.

This cooperation may extend to research, providing transportation for children to special schools and hospitals, coordination of curriculum, exchange of information and data, construction of facilities which may be effectively used on a cooperative basis, sharing of curricular offerings, cooperative purchasing and the coordination of school calendars and activities. This cooperation may also extend to charter schools.

Before joining in any cooperative effort and to serve the best interests of the students, the Superintendent investigates and suggests cooperative ventures and provides the Board with supportive documentation prior to the time the Board is asked to act.

STUDENT TEACHING AND INTERNSHIPS

The Board recognizes the contributions student teachers and/or interns can make to the District and its responsibility to ensure high quality teacher training. Therefore, the Board authorizes the Superintendent/designee to arrange for the annual supervision and training of student teachers and interns.

The importance of the teacher training function to the future of education and the need to ensure high quality performance in our schools require student teachers to be placed with experienced teachers of demonstrated competence. While no staff members are required to supervise student teachers, it is expected that interested teachers volunteer for such duties.

The teacher training institutions should provide liaison personnel who discuss with the building principal and supervising teacher the broad objectives that the institution believes should be pursued. Liaison personnel, subject to all school visitor rules and regulations, are free to visit the classrooms to observe the student teacher at work.

It is expected that the teacher training institution arranges the schedule of the student teacher to provide sufficient time in the classroom in order that continuity of experience for the student teacher and the District students is ensured.

EDUCATIONAL OPTIONS

The Board recognizes that an effective educational program is one that provides opportunities for students to learn both within the classroom and, for specific reasons, beyond the traditional classroom and school day. These expanded opportunities are viewed as educational options to supplement the regular school program.

The intent of educational options is to allow educators, other professionals, parents and others to work together to provide opportunities for students to learn in an independent or individual setting and to study or work with recognized experts in specific fields. Educational options are seen as additional curricular opportunities to improve, expand and enrich student learning experiences and perspectives.

Independent study, distance learning, tutoring, educational travel, mentoring and study abroad programs are representative of experiences which the Board views as educational options supplementing the regular school program.

Fees are established for educational options as needed. Participating students are expected to pay fees upon beginning educational options.

The Superintendent develops regulations when the educational options are initiated. Each program option developed is presented to the Board for adoption; its regulations are presented for approval.

EDUCATIONAL OPTIONS

When initiated, educational options must adhere to the following criteria.

1. The parent(s) must provide written approval for students under 18 years of age to participate. A copy of the written approval must be retained in the school files. Students 18 years of age or older must submit a written request to participate. This request is kept on file.
2. An instructional plan which contains written measurable objectives must be submitted to, and approved by, the Superintendent. Instructional objectives must align with the District curriculum requirements.
3. The instructional plan includes an outline specifying major instructional activities and identifying materials, resources, facilities and equipment needed to achieve instructional objectives.
4. Promotion and retention decisions for students, kindergarten through eighth grade, participating in an optional instructional plan are based on student performance relative to the objectives of the option.
5. The instructional plan includes a written plan for the evaluation of student performance.
6. In tutorial and independent study programs, a certificated/licensed teacher provides both the instruction and evaluation of students. In all other cases, a certificated/licensed teacher provides only the evaluation of student progress.
7. The written instructional plan includes a time for the evaluation of the educational option. Continuance of the option is determined by the results of evaluation.

(Approval date: December 22, 2009)

POSTSECONDARY ENROLLMENT OPTIONS

The law provides for student participation in the postsecondary enrollment option program and permits 9th through 12th grade students to enroll at any participating college/university on a full- or part-time basis and complete nonsectarian courses for high school and/or college credit.

The Board directs the Superintendent or his/her designee to develop and establish procedures and necessary administrative guidelines to ensure that programs are in accordance with state requirements.

The administrative guidelines must contain the following.

1. General information about this option is distributed to all 8th through 11th grade students and parent(s) by March 1.
2. Notification to participate by the student to the District is required by March 31.
3. Counseling services are provided to students and parent(s) prior to participation in the program.
4. The college/university must notify the District of those students who have enrolled in the program.
5. Information about enrollment options for students must be provided.
6. Information concerning college and high school graduation credit for students enrolled in the program must be offered.
7. The calculation of full-time enrollment including the maximum number of Carnegie units and conversion of college courses to high school courses is provided.
8. Financial responsibilities of the student and District, including tuition, books, materials, fees and transportation reimbursement, are discussed.

If a student is expelled from the District, the Board will deny high school credit for college courses taken during the period of the student's expulsion.

The Superintendent must send written notice of a student's expulsion to the college where the student is taking courses to receive high school credit. The notice must state the date the expulsion is scheduled to expire and whether the Board has denied high school credit for postsecondary education courses taken during the expulsion. If the expulsion period is extended, the Superintendent must notify the college of the extension.
