1.0 Media Specialist

We are searching for a media specialist who will facilitate the library media center, at both Stevenson Elementary School and Edison Intermediate Middle School, as a learning core of the buildings. Candidates should be skillful and have successful experiences in supporting the 21st century learner by:

- supporting inquiry, helping students think critically and gather information, both in and out of the classroom.
- assisting students in drawing conclusions, making informed decisions, applying knowledge to new situations and creating new knowledge as appropriate.
- sharing knowledge and participating ethically and productively as members of our democratic society
- seeking opportunities for personal and aesthetic growth
- supporting technology skills that enhance teacher and student growth and understanding
- skillfully use and create opportunities for students and teachers to access digital, visual, textual and technological literacies in their pursuit for teaching, learning and understanding.
- creating media center learning environments that provide intellectual access to the resources and tools required for learning in a warm, stimulating, and safe environment.
- understanding student learning, current educational trends, and technology tools to support and develop strong partnerships with classroom teachers and student learning throughout the school day.

Candidates should have documented successful experiences with primary and intermediate-aged learners, as well as the appropriate Ohio licensure for library science/media specialists.

Applications can be found on-line at:
